How It Works

Everything is handled by email — no portals, no accounts to create. Prepare your package, zip it, send it in, and we take it from there.

STEP 1 — PREPARE YOUR GUEST POST

1. **Option 1 (Ready-to-Publish):** Send your finished article as a Word doc (.docx) or Google-Doc-exported file, 800–1,500 words, proofread and final.
2. **Option 2 (Fully Managed):** Send your raw materials — bullet points, product info, brand background, key messages, and any links you want included. Our writers craft the post from there.
3. Include your images (JPG/PNG, 1200px wide or larger) and clearly mark where each link should point.
4. Add a short author bio (2–3 sentences) if you'd like one published with the post.

STEP 2 — ZIP & EMAIL YOUR PACKAGE

1. Place your article, images, and a plain-text file listing your links into one folder.
2. Compress the folder into a single .zip archive.
3. Email the zip as an attachment to **ads@spinfuel.com** with the subject line: **Guest Post — [Your Brand] — Option 1 or 2**.
4. We'll confirm receipt within one business day and send payment instructions for your booking.

STEP 3 — PAYMENT & PUBLISHING

1. Once your package passes our editorial review, we issue payment instructions.
2. Your post is scheduled as soon as **payment is received in full** — payment always precedes publishing, with no exceptions.
3. We email you the live URL the moment your post is published.

Content guidelines: Posts must be original (not published elsewhere), relevant to our readers, and free of unsubstantiated health claims. We reserve the right to request edits before publishing. Gambling, CBD-isolate-as-medicine, and purely adult topics are not accepted.
